In which part of Argentina is this program taking place?

CÓRDOBA CITY

Córdoba is the capital city of the Argentine province of Córdoba. It is located in the central region of the country, on both banks of the Suquía River. It is the second most populated city in Argentina after Buenos Aires. It is also an important cultural, economic, educational, financial and entertainment center of the region. It is also known as "La Docta" or "The city of bells." It is estimated that it has a population of approximately 1,500,000 inhabitants.

It is an important cultural factory, receiving university students from all over the country and the world. Its University, founded in 1613, is the first in Argentina and the fourth oldest in America. It is considered one of the

most important on the continent. It has more than one hundred thousand students.

The city has important historical, cultural and tourist spots. In 2000, Unesco declared the Jesuit Block a World Heritage Site, in 2006 it was named the American Capital of Culture, and named headquarters of the International Congress of the Spanish Language in 2019.

You will arrive at the Córdoba City Airport (COR) and a friendly member of our team will be waiting to pick you up. The cost of transportation to and from the airport is already included in your program.

Nueva Córdoba, Córdoba. Argentina

The neighbourhood where the IES is

NUEVA CÓRDOBA NEIGHBOURHOOD

It is an area full of apartment buildings, crossed by wide avenues and overlooking the largest park in the city. The Nueva Córdoba neighbourhood is located in the south-central sector of the urban community. It forms, next to the city center, one of the most dynamic sectors of the economic, cultural and recreational life of Cordoba, in addition to being the most sought-after sector of the city.

The neighbourhood is one of the most densely populated. The peculiarity is that most of its population comes from other parts of the province and the country, it is calculated that on average during times of study, 1,000,000 people frequent Nueva Córdoba. This is due to the fact that it is

largely about students who make their careers in some Cordoba institution. Especially at the National University of Córdoba, whose University City is located directly south of the neighbourhood?

In that sense, this has given Nueva Córdoba a characteristic neighbourhood air in which the novelty does not leave its streets, housing mostly young people who enjoy its abundant bars, pubs, squares, gyms, clothing stores and much more; since it is mostly a youth neighbourhood, and therefore various activities are planned with this in mind.
